Changes Made:

1. The vision screening fee increase is all going to the Patrol.
2. The proposed fee increase for vehicle registrations (excluding commercial trucks) was reduced from $6.50 to $5.75 due to the extra revenue generated from increasing the late fine to $10.00.
3. The new proposed fees for vehicle registrations for commercial trucks over 26,000 lbs. were changed to reflect 100% going to the Patrol.
4. The proposed fee for vehicle registrations for Ohio-based commercial trucks was changed from a percentage increase to a flat fee.
5. IRP registration revenue from other states was added.
6. Late fines were made $10.00 and identification cards were removed from the volume of transactions. The number of transactions was further reduced by 25% because some people will now process their transactions on time to avoid the late fines.
