FULL 5 DAY COURSE

The "Medic Up" Tactical Medic Training Course was developed to provide the most realistic and up to date training in the tactical medical field. This physically demanding 5 day basic course serves as both an introduction to Tactical EMS and basic tactical operations

"Medic Up" offers a high speed mix of classroom, hands-on skill assessment centers and actual tactical scenarios that are as realistic as it gets. Students are introduced to both medical and tactical skills that are necessary when operating on a tactical medic team. You will experience first hand how to perform patient assessment, treatment and evacuation techniques in the most austere tactical environments. Learn how to "Bring good medicine to bad places".

Classes or tailored to your Department
