Ohio Board of Building Standards Presents:

2013 RCO Energy Efficiency Compliance Paths!

The Board of Building Standards, in conjunction with Central Ohio Code Officials Association, is proud to present training on the 2013 Residential Code of Ohio Chapter 11 Energy Efficiency Compliance Paths. This in-person training will take place around the State of Ohio during January and February of 2013 and is open to building department personnel and the public. Registration is required. In the upcoming weeks the Board will send out an email containing registration information. *Make plans to join us at a facility near you!*

Questions: Please contact Felecia Jackson at: felecia.jackson@com.ohio.gov

Future Sessions: We will announce more dates for the energy code training in the future. Watch for emails

We hope to see you there.

Sincerely,

Felecia Jackson
Professional Development Administration
Ohio Board of Building Standards

This education series is funded by the three percent and one percent assessments collected on behalf of the Board by certified building departments from the construction industry. These funds help ensure that certified building department personnel have sufficient training and resources to provide a high level of service to our regulated community, reducing unnecessary costs and increasing compliance
