May 7, 2008

The Ohio Department of Public Safety is pleased to present the 2007 Ohio Traffic Crash Facts Book, an in-depth highway safety statistical profile and analysis compiled from data supplied by law enforcement agencies from across the state.

This annual report provides a comprehensive look at the driving habits of Ohioans. It also helps the Ohio Department of Public Safety and local law enforcement agencies determine priorities and allocate resources to improve highway safety in Ohio.

In 2007, Ohio continued to make improvements in highway safety. The traffic crash fatality rate stayed near the historic low set last year, while Ohio experienced declines in both rural traffic fatalities, which account for nearly two-thirds of all traffic deaths, and alcohol-related fatalities.

The statistics for fatal and injury crashes among Ohio's youngest drivers continue to improve. Fatal crashes and injury crashes involving teen drivers ages 15-18 have declined by nearly 30 percent during the past five years – a positive sign that increased vigilance and recent law changes are making an impact in our efforts to keep Ohio's youngest drivers safe.

Our continued safety success is positive proof of the partnerships established among the dedicated members of the Ohio State Highway Patrol and our local law enforcement partners. Continuing trends in the crash fatality rate declines and increased seat belt usage are encouraging to those who educate the motoring public and promote safe driving messages.

The progress we've made reflects our strong commitment to improve safety and Governor Strickland's commitment to improving the quality of life for all Ohioans through partnerships at all levels of government. I commend everyone who has dedicated their efforts to accomplishing this mission. Working together, we will continue to make great strides in enhancing safety for those traveling Ohio's highways.

Sincerely,

Henry Guzmán, Director
Ohio Department of Public Safety

Mission Statement

"to save lives, reduce injuries and economic loss, to administer Ohio's motor vehicle laws and to preserve the safety and well being of all citizens with the most cost-effective and service-oriented methods available."

At a Glance

- Approximately **3.2** fatal crashes each day.
- Approximately **3.4** persons were killed each day.
- One person was killed every **7.0** hours.
- There were **318.9** persons injured every day.
- One person was injured every **4.5** minutes.
- Of drivers involved in crashes, **54.1 %** are males, **41.8 %** are females, and **4.1 %** are gender not stated.
- Alcohol impaired drivers were involved in **4.54 %** of all crashes.
- Alcohol impaired drivers were involved in **37.63 %** of all fatalities.
- **77.0 %** of all alcohol impaired drivers involved in crashes were males.
- **65.0 %** of all crashes occurred during the daylight.
- Motor vehicle crashes killed **39.0** children and injured **9,159.0** children through age 14.
