To: Ohio EMS providers, EMS medical directors, and partners in Ohio's healthcare delivery and medical transportation systems
From: Carol A. Cunningham, M.D., FAAEM, FAEMS
State Medical Director, Ohio Department of Public Safety, Division of EMS
Date: February 16, 2017
RE: Amendments in the Ohio EMS scope of practice

On February 15, 2017, the State Board of Ohio Emergency Medical, Fire, and Transportation Services (EMFTS Board) made the following amendments to expand the Ohio EMS scope of practice:

1. Emergency medical responders (EMRs (formerly First Responders)) may apply and utilize chest compression assist devices.
2. Emergency medical technicians (EMTs (formerly EMT-Basics)) may apply and utilize negative impedance threshold devices.
3. Emergency medical technicians (EMTs (formerly EMT-Basics)) may transport patients with central or peripheral intravenous (IV) access established if there is no IV infusion.

Analogous with all elements of the Ohio EMS scope of practice, authorization from the EMS medical director, who must meet the qualifications cited in the Ohio Administrative Code 4765-3-05, is required. In addition, the EMS medical director must provide a written protocol, training, continuing education, and a quality assurance program prior to the performance of these patient care measures by certified Ohio EMS providers. While the associated regulatory language and education curricula are being developed, these amendments in the Ohio EMS scope of practice became **effective February 15, 2017**.

As a resource to all parties involved, an updated Ohio EMS scope of practice matrix that reflects the EMFTS Board's amendment is now available on the Ohio Department of Public Safety, Division of EMS website at http://www.publicsafety.ohio.gov/links/ems_scope_practice.pdf. While this matrix

Mission Statement

"to save lives, reduce injuries and economic loss, to administer Ohio's motor vehicle laws and to preserve the safety and well being of all citizens with the most cost-effective and service-oriented methods available."

provides a brief synopsis, I strongly encourage you to review the citations in chapter 4765 of the Ohio Revised Code and the upcoming revised Ohio Administrative Code for complete information regarding the Ohio EMS scope of practice.

If you have any questions or concerns, please do not hesitate to contact me or a member of our staff at the Ohio Department of Public Safety, Division of EMS at (800) 233-0785. As always, thank you for your dedicated service to the residents and visitors of Ohio and to Ohio EMS!
