Ms. Jacobson noted that the Ohio Hospital Association was working on regional planning grants for hospitals, and that they would like assistance from the Ohio Pediatric Disaster Preparedness Coalition in developing guidelines and policies for pediatric burn surge incidents. Dr. Pomerantz asked that the OPDPC meet immediately prior to EMSC Committee meetings.

Mr. Stack noted that several pre-hospital equipment items were being purchased for distribution to the agencies who responded to the 2011 survey indicating these items were lacking.

Dr. Pomerantz requested that the certificate for the Emergency Departments: Pediatric Prepared program be made with signatures from the EMS Director, the EMSC Chair, and the EMSC Coordinator.

Ms. Broadway suggested that the upcoming ITLS Conference session for EMSC feature disaster preparedness; Dr. Dahl-Grove agreed to contact the conference organizers.

Mr. Stack noted the EMSC components of the EMS Strategic Plan, which primarily feature elements of the EMSC Performance Measures.

Mr. Stack stated that EMSC would be part of poster presentations at the Pediatric Academic Society and EMSC Annual Meetings. He added that the EMSC grant would require a new application this fall, and would ask for input from the Committee on possible activities.

The meeting adjourned at 4:45pm. The next EMSC Committee meeting will be June 19, 2012, from 2:30pm to 4:30pm, in ODPS Room C4-9 and C4-10.
