

How Do I Complete the Ohio Trauma Triage requirement?

Documentation of the completion of the Ohio Trauma Triage course is required during each 3-year certification cycle for the Ohio EMT-Basic, EMT-Intermediate and the EMT-Paramedic to meet re-certification requirements.

This course can be taken at any Ohio EMS Board Accredited (initial) or Approved (CE) Training Programs, or from the Ohio EMS online training program www.ohioemstraining.com .

This link can also be found on our web page www.ems.ohio.gov under “On-Line Services”, click on “EMS On-Line CE Training”. Once into the Ohio EMS on-line training program, please join if you have never been a member of the Ohio EMS On-line Training Program, specifically. Click under the sign-in box, “Not yet a Member, Join here”.

Completion of other trauma triage courses, in classrooms or online, are not meeting the specific Ohio law for Ohio Trauma Triage requirements, and will not count as completion of the Ohio Trauma Triage course.
