

# MEDIC UP INTERNATIONAL

## CLASSES FOR ALL ASPECTS OF PUBLIC SAFETY POLICE, FIRE AND EMS

### SWAT MEDIC PROGRAM

Medic Up is the command given to initiate medical care in the tactical arena. Is your team ready for that call? Are you ready for that call? Will you have the training and skill to perform your duties in an austere environment? Join us for a 3 or 5 day course that will prepare you for the tactical environment and learn the skills necessary to operate within the tactical arena.

The Medic Up Tactical Medic Training Course was developed to provide the most realistic and up to date training in the tactical medical field. This physically demanding 3 day course serves as an introduction to Tactical Operation Medical Support.

Medic Up offers a high speed mix of classroom, hands-on skill assessment centers and actual tactical scenarios that are as realistic as it gets. Students are introduced to both medical and tactical skills that are a necessity when operating on a tactical medic team. You will experience first hand how to perform patient assessment, treatment and evacuation techniques in the most austere tactical environments. Learn how to Bring good medicine to bad places.

The Medic Up Tactical Medic Training Course is for all certified/licensed EMT'S, Paramedics, RNs, PA and physicians that are currently on, or looking to join a tactical operation medical support team.

### ACTIVE SHOOTER / TACTICAL PATROL

In today's world we all know the dangers that exist. This 3 or 5 day class will train patrol officers as well as officers assigned to your SWAT team how to add the medical element to your team.

During this class officers will receive a review of the active shooter response. Adding the medical element for self aid, buddy aid as well as aid of the victims after the threat has been neutralized.

Traditional ACTIVE SHOOTER Schools deal with neutralizing the threat but what happens next..

This law enforcement specific class will add officer down drills as well as tactics to provide officer down rescue with vehicles.

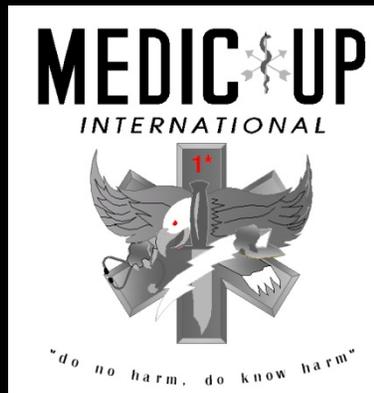

Every day you make split second decisions while on patrol. Let this tactical patrol class give you the tools needed to make life or death decisions on treating your own injuries or the injuries of your partner when the unthinkable happens.

## TRAINING ALL ASPECTS OF PUBLIC SAFETY POLICE, FIRE AND EMS

### Testimonials

- *"The most realistic Swat Medic Program we have taken." -Pittsburgh, Pa*
- *"Your class provided me with the means to respond to our own active shooter months after class" -Beachwood Ohio*
- *"BEST TRAINING ever in my career... the skills I learned I use every day now at work." -Kansas City, Kansas*
- *"The Instructors are down to earth and bring a wealth of information from all aspects of public safety." - Missouri*
- *"One of the Best Courses our Country has offered for public safety professionals and military personnel" - IRELAND*

### **Why is MEDIC UP International different from other classes?**

Medic Up completes a needs assessment for your area and creates each class differently based on your needs. This allows each student to get the most beneficial classroom and hands-on training available. Each program is very high speed as we believe in very little down time for students. Each Instructor brings a different perspective to the table and students are able to evaluate the best possible scenario that will work for them

Our goal is to give each student as much information possible in the little time we spend with them. Each Medic Up class is both physically and mentally demanding for students.
