Donate blood or host a blood drive for Guns and Hoses!

Join your fellow firefighters, police officers and other first responders and come to donate blood during the 17th annual Guns-N-Hoses campaign this July!

Not only are you supporting local patients in need, but you will also have your chance at great gifts and prizes and to vote for either the guns or the hoses in this friendly competition.

As a first responder, you see the need for blood first hand during the summer trauma season. Collecting enough lifesaving blood for local patients is particularly challenging during summer months because of the increase in traumas to which you respond. But at the same time, the availability of donors typically decreases due to vacations and other activities.

Every blood donation collected through Guns-N-Hoses will be critically needed. Help save lives this July with your community's first responders.

For more details and information about participating by coordinating a drive or donating blood during the campaign, go to <http://www.redcrossblood.org/promotions/centralohio/guns-n-hoses-police-and-fire-officials-fight-summer-blood-shortages>.

The need is constant. The gratification is instant. Give blood.
