On September 19, 2011, the Federal Bureau of Investigation released *Crime in the United States 2010*. This annual publication is a compilation of statistics collected by the FBI's Uniform Crime Reporting (UCR) program, which is a nationwide, cooperative statistical effort of nearly 18,000 city, university and college, county, state, tribal, and federal law enforcement agencies voluntarily reporting data on crimes brought to their attention. During 2010, law enforcement agencies active in the UCR program represented 97.4 percent of the total population.
