OhioHealth Grant Medical Center presents

The Ohio EMS Conference

SUPPORTING THOSE THAT SERVE SO MANY

MONDAY, MAY 20, 2013

The Greater Columbus Convention Center

Featuring Keynote Speakers:

BRENT MYERS, MD, MPH, FACEP

AND PAUL E. PEPE, MD, MPH

Conference Objectives

Upon completion of The Ohio EMS Conference, the healthcare provider should be able to:

1. List current trends in the initial management of the prehospital and emergency department care of the critically ill and injured patient
2. Discuss controversial care and treatment modalities in the prehospital and emergency department care of the critically ill and injured patient

Franklin County Firefighters/Grant Medical Center EMS Education Alumni Breakfast

Faculty, graduates and current students of the Franklin County Firefighters/Grant Medical Center EMS Education EMT and Paramedic Schools are invited to attend a private breakfast from 7:30-8:30 a.m. that celebrates the successes of our program and its people. The tie between our students — those past, present and future — forms a solid foundation that contributes to an environment of professionalism, camaraderie, and lifelong learning among EMS professionals throughout the region. Come network with others, enjoy a great breakfast and help celebrate this year's Excellence in EMS Education Award recipient.

The Ohio EMS Leadership Forum

Chiefs, EMS Coordinators, EMS Officers, Training Officers, Preceptors, Medical Directors, and others with an interest in EMS leadership and management are invited to join us from 10:20 a.m. to 3:45 p.m. for The Ohio EMS Leadership Forum. The forum participants will be able to join other attendees at The Ohio EMS Conference opening keynote presentation immediately before the forum and the closing keynote presentation that follows.

Participants will have multiple opportunities throughout the day for learning, sharing, open discussion and networking. The forum includes a variety of presentations by the day's main conference keynote presenters and other specialists, along with an expanded, participant-driven discussion and brainstorming session. To encourage interaction, we ask that each participant identify two or three clinical, educational or operational issues for potential discussion.

Opening Keynote

BRENT MYERS, MD, MPH, FACEP

Dr. Myers serves as both the Medical Director and the Director for the Wake County Department of EMS in Raleigh, NC. He completed his undergraduate training at the University of North Carolina at Chapel Hill, Medical School at the Wake Forest University School of Medicine, Residency in Emergency Medicine at Carolinas Medical Center, and EMS Fellowship and Masters of Public Health at UNC-Chapel Hill. Dr. Myers is an internationally recognized expert in the areas of cardiac arrest resuscitation, induced hypothermia, and EMS System design. He is past President of the North Carolina College of Emergency Physicians, has received the National EMS Medical Director of the Year Award from the National Association of EMTs, and was recognized as one of the top 10 innovators of EMS by the Journal of Emergency Medical Services. He has published many peer-reviewed articles and also serves on the editorial boards of the Journal of Emergency Medical Services and Prehospital Emergency Care. He currently serves as Course Director for the Advanced Topics in Medical Direction Course for the National Association of EMS Physicians (NAEMSP) and also serves on the Board of Directors for NAEMSP.

Closing Keynote

PAUL E. PEPE, MD, MPH

Professor of Medicine, Surgery, Pediatrics, Public Health and Riggs Family Chair in Emergency Medicine, University of Texas Southwestern Medical Center and the Parkland Health & Hospital System; Director, City of Dallas Medical Emergency Services for Public Safety, Public health and Homeland Security; Medical Director, Dallas Metropolitan Medical Response System (MMRS) for Counter-Terrorism and Disaster Mitigation and the Dallas Metropolitan Area BioTel (EMS) System, Dallas, Texas

Dr. Pepe heads an academic EM program based at the county emergency trauma center, Parkland Hospital, and the North Texas Poison Control Center. As the City of Dallas Director of Medical Emergency Services for Public Safety, Public health & Homeland Security and jurisdictional Medical Director for the regional EMS system annually he oversees about a quarter million EMS incidents and 3,000 paramedics/first responders in Dallas and the surrounding cities in Dallas County. He is also the Medical Director of special services for the DFW International Airport, the Dallas Police Department and the Dallas Metropolitan Medical Response System for counter-terrorism and disaster mitigation.

An extremely distinguished academician, Dr. Pepe is renowned for a grass-roots "street-wise" style in planning, implementing and overseeing a "systems" approach to saving lives. Both operationally and through clinical trials, his programs have resulted in some of the highest cardiac arrest and trauma survival rates worldwide.
