Wilmington Post Tpr. Kyle Hurles arrested Connie S. Williamson, 53, for her **SEVENTH OVI** offense on 5/24/08.

Senate Bill 17 Field Bill Analysis

Law Summary:

- Adds a new provision to both the Vehicle Implied Consent Law and the Watercraft Implied Consent Law that specifies that if a person is arrested for any of the list of offenses that subjects a person to either of those laws and the person has two or more prior convictions of state OVI, state OVUAC, state OMWI, or “equivalent offenses”, in the prior six years, has five or more such prior convictions within the prior 20 years (OVI and OVUAC), or has a prior felony state OVI conviction (OVI and OVUAC), the arresting law enforcement officer must request the person to submit, and the person must submit, to a chemical test of the person’s whole blood, blood serum or plasma, breath, or urine. If the person refuses to submit to a chemical test upon request of the officer, the officer may employ whatever reasonable means are necessary to ensure that the person submits to a chemical test.
 - The officer is immune from criminal and civil liability based upon any claim for acts taken under the provision described in clause, unless the officer acted with malicious purpose, in bad faith, or in a wanton or reckless manner.
- Provides that if a defendant claims a constitutional defect in any prior conviction when it is necessary to prove such a conviction for sentencing and other purposes, the defendant has the burden of proving the defect by a preponderance of the evidence.
- Requires the Ohio Department of Public Safety to establish a state registry of Ohio’s habitual OVI/OMWI offenders and an Internet database, both of which are public records, containing specified information about persons who on or after the effective date of the bill receive their fifth or subsequent conviction within the preceding 20 years.
- Extends to 45 days the period of the “hard suspension” of a person’s driver or commercial driver license or nonresident operating privilege when results of a chemical test following an arrest for state OVI, state OVUAC, or another equivalent offense indicate a prohibited concentration of alcohol or drugs and the person has previously been convicted of or pleaded guilty to one state OVI, state OVUAC, or an equivalent offense within the prior six years.
- Utilizes electronic monitoring technology during sentencing for habitual offenders. Technology being ignition interlock devices and continuous alcohol monitoring devices.

HOT SHEET

NEWS NOTES

- In order to process your HOT SHEET Report Form, please either print legibly or type. It is difficult to process some reports because they smear in the faxing process. Thank you!
- If anyone has photos from sobriety checkpoints or other alcohol-related programs, please send them, along with a small explanation.
- If you would like more information about the Habitual Offender’s Program or would like to inform us about your agency’s Hot Sheet arrest, please contact:
